Nuntawat Fangritlong

Cloud Engineer

EXPERIENCE

DevOps | current

krungsri

I am a DevOps Engineer automation

- • Developed and maintained automation Playbooks on Ansible AAP to streamline server provisioning and configuration tasks.
- • Built and managed infrastructure using Terraform, including creating new resources and modular configurations.
- • Containerized and deployed applications using Docker, ensuring consistent and reliable environments.
- • Performed application deployments (both app-level and Docker-based) across multiple environments.

Cloud Engineer | 2024 - 2025

Mobileconnect

I am a Cloud and DevOps Engineer with practical experience in AWS, automation, and containerization.

- • Managed AWS Cloud services, performed environment setup, and supported application & data migration to AWS.
- • Designed and implemented cloud networking using VPC, Transit Gateway, and enforced access control with IAM.
- • Worked in AWS Presales, providing cost optimization, architectural recommendations, and producing high-level design diagrams for customers.
- • Built and deployed containerized workloads using Docker and Amazon ECS.
- • Automated infrastructure provisioning using Terraform (IaC) and operational workflows using Ansible AAP.

Cloud Engineer | 2023 - 2024

Fujitsu (Thailand) Co., Ltd.

I am a skilled Cloud Engineer with hands-on experience across on-premises and cloud environments.

- • Managed and supported AWS Cloud and Azure Cloud services across multiple environments.
- • Prepared and maintained operational documents, including CAB change requests and incident reports.
- • Implemented and managed HAProxy, Squid Proxy, and containerized workloads using Docker.
- • Delivered key projects such as designing new infrastructure zones, cloud migration, and automation initiatives to improve efficiency and reliability.

System & Network Engineer | 2022 - 2023

Tri Petch IT Solutions Co., Ltd.

I am an experienced Network engineer with expertise in network, server, security, and automation solutions.

- Cisco Expertise: Configured Cisco switches, DNA Center, ISE, WLC, and APs.
- Server Management: Administered Windows Server, Linux, VMware ESXi, and vCenter.
- Security & Monitoring: VA scans and automated monthly reports were performed.
- Automation: Developed scripts to replace 20+ manual tasks, enhancing efficiency.
- Projects: Implemented 2FA (Rublon) and automated reporting systems.

System & Network Engineer | 2020 - 2022

Pro Inside Co., Ltd.

I have experience working in the System Integration (SI) field, where I was responsible for configuring and managing servers, network infrastructure, and firewall security.

- **Network Configuration:** Configured Cisco and Huawei switches (VLAN, Trunk) and firewalls (Sophos, Fortigate).
- **System Configuration:** Managed VMware ESXi, vCenter, and storage solutions (Dahua, Huawei, HP).
- **Open-Source Firewalls:** Deployed and maintained OPNsense, pfSense, and IPFire.

INTERNSHIP

Developed | 2020 (4 Months)

CETA Testsysteme GmbH

- Configured Webday on Linux (Debian) using Laravel and Firebird SQL.
- Developed with Angular, Bootstrap, and Angular Material.

EDUCATION

Mahasarakham University | 2016 – 2019

Bachelor of Computer Science

SKILLS

Automation: Ansible, Terraform, Jenkins
Monitoring Log: Grafana, Prometheus, Loki
